## How do I get hired?

Getting hired on oDesk is much like getting hired in the real world—you'll have to apply to projects and impress potential clients before being offered a job. Start by searching for jobs you know you're qualified for—once you've found the perfect project, apply by sending the client a well-written cover letter.

An impressive cover letter significantly increases your odds of getting an interview, so be sure yours is:

- ✓ Professional, well-written, and error-free
- ✓ Tailor-made for the job being applied to
- ✓ An accurate representation of your strengths and skills

Did you find a few jobs you're qualified for? Apply to them all! You can apply to multiple jobs as long as you have the right skills for the project. In fact, you're more likely to get hired when you pursue more than one opportunity.
